beautiful innovation you can trust

Naturally beautiful.
Naturally confident.

edelweiss dentistry is dedicated to making you feel happier and healthier by giving you a naturally beautiful, longer lasting and confident smile.

Using state of the art technology we have created the leading range of innovative and beautiful oral health products.

Bio-Esthetics & Function
in one Appointment

edelweiss veneers are made using the very latest technologies, allowing us to capture and replicate the very essence of a natural tooth. Both strong and beautiful, our veneers give you a naturally functioning, radiant smile that lasts.

An imbalance in the relationship between teeth can often cause discomfort. We have a range of crowns and bridges to help you maintain a healthy and happy balance, removing discomfort and increasing your level of oral health.

Treatments using edelweiss dental therapies are designed to be as comfortable and non-invasive as possible, giving you a great result in just one appointment.

The difference lies in the
similarity with nature
